## PROFESSIONAL SUMMARY

BSc Information Technology graduate with strong foundations in C#, Java, SQL, and .NET. Experienced in object-oriented programming and database integration through academic and personal projects. Exposure to REST API concepts and ASP.NET Core development. Seeking an internship or Junior Software Developer role to apply and develop technical skills. Willing to relocate if required.

## EDUCATION

### Bachelor of Science in Information Technology — 2022 – 2025

North West University

*Core modules: Object-Oriented Programming, System Analysis & Design, Databases, Computer Networks, Artificial Intelligence | GPA: 70.71*

### National Senior Certificate — 2014 – 2019

Magwagwaza High School

## SKILLS

**Programming Languages:** Python, Java, C#, C++

**Web Technologies:** HTML, CSS, JavaScript

**Frameworks / Platforms:** ASP.NET Core, .NET

**Tools:** Git, GitHub, Visual Studio, VS Code, Microsoft Excel, PowerPoint

**Databases:** SQL Server, SQL

**Software Development:** Object-Oriented Programming, debugging, problem-solving

**Soft Skills:** teamwork, communication

## PROJECTS

### Mini Spotify Console App (Java OOP + File Handling)

Personal Project

- Developed a Java console application for managing songs and playlists with CRUD and search functionality
- Applied key OOP principles including encapsulation, inheritance, polymorphism, and abstraction to design a structured music management system.
- Implemented playlist features such as shuffle, sorting (artist, genre, duration), favorites, and file handling for persistent data storage.

### C# .NET Application Development (Windows Forms, ASP.NET & SQL Server)

Academic Project | North West University | 2024

- Developed C# Windows Forms and ASP.NET applications using event-driven programming and structured design principles.
- Built database applications using ADO.NET for CRUD operations and data display in DataGridView.
- Implemented search, filtering, and data display features using DataGridView and SQL queries.
